PRENTISS VISES

AIR VIEW OF FACTORY MANUFACTURING THE PRENTISS VISE. COMPLETE FACILITIES FROM CASTINGS TO FINISHED PRODUCT INSURE UNIFORM QUALITY AND ADEQUATE STOCKS OF COMPLETED VISES.

PRENTISS VISES

FOR EIGHTY YEARS A QUALITY PRODUCT
SINCE 1868

Patented Lock Washer holds
screw firmly in position.

THE PRENTISS VISE

Prentiss originated the Swivel Jaw Vise and it has always been recognized as the finest swivel-jaw vise made. Refer to next page for detailed information.

DETACHABLE STEEL JAW FACES

Prentiss Vises are equipped with removable and renewable steel jaw faces, made of the finest tool steel hardened and tempered. These jaws are fastened with two set screws. Jaws screwed on sometimes work loose, but with the Prentiss method (hardened pin driven thru center of steel faces into solid metal of the jaws) the side shear which might cause the screws to loosen is entirely eliminated. The Prentiss jaws are as solid as though cast on, yet renewable.

PRENTISS IMPROVED SWIVEL BASE

The improved swivel base, now on all Prentiss swivel vises, is a split ring squeezed against hub on vise body. Has greater holding power and freer action than other types and is easier to operate. When base plate is opened the vise can easily be turned to any position. When the bolt is tightened, the ring is closed on the hub, holding the vise immovable. This mechanical principle is commonly used in machine tools.

INTERCHANGEABLE PARTS

New patterns and new jigs have been made to guarantee interchangeable parts. Refer to parts and price list at end of the catalog.

PRENTISS VISES

PRENTISS SWIVEL JAW VISES (WITH SWIVEL BASE)

Designed to hold irregular pieces. With taper pin removed, the back jaw swivels automatically as the vise is screwed up on the work, until the angle between the jaws conforms to the shape of the work. With taper pin inserted, it becomes a Parallel Solid Jaw Vise.

ALL PARTS INTERCHANGEABLE

Vise No.	Replaces Vise No.	Jaw Width	Opens Inches	Weight Lbs.	List Price

456	22	6"	9	168	120.00

PRENTISS VISES

PRENTISS "BULL DOG" MACHINISTS' VISES

Prentiss line of "Bull Dog" vises has been redesigned to scientifically distribute the metal for greatest possible strength—castings are made in our own foundry out of a special alloy mixture. Steel jaws are detachable and interchangeable. Improved construction methods make them as rigid as though they were cast on — yet renewable when worn.

Split ring swivel base assures positive lock in any position.

Refer to page one for detail of construction features.

PRENTISS VISES

PRENTISS "BLAKE" COMBINATION PIPE VISES

Our Combination Pipe Vises are exceptionally heavy and are made to stand hard usage. The pipe jaws are made of the highest grade steel, milled and tempered in oil. They are so designed that they do not project beyond the face of the steel jaw. The split ring swivel base assures positive lock in any position.

Vise No.	Replaces Vise No.	Jaw Width Inches	Holds Pipe Ins.	Weight Lbs.	List Price
353½	181	3½	⅛ to 2½	55	\$35.00
354½	182	4½	⅛ to 3½	80	48.00
355	182½	5	⅛ to 4½	120	76.00
356	183	6	⅛ to 6	185	120.00

PRENTISS HINGED PIPE VISES

Prentiss Hinged Pipe Vises are constructed of a high grade MALLEABLE IRON. The hook is self locking. The screw and handle is cold-rolled steel. New style pipe jaws are tool steel — milled and tempered in oil.

Vise No.	Replaces Vise No.	Holds Pipe Ins.	Weight Lbs.	List Price
